PROFESSIONAL SUMMARY

25-year-old full stack software developer, focused on continuous learning and constant improvement. Experienced in designing and developing web and enterprise applications, system integration, database management, and code optimization. Looking to apply my technical knowledge in challenging environments that promote professional growth.

PROFESSIONAL EXPERIENCE

Freelance Developer

Jul 2021 - Present

- Developed enterprise applications (ERP, inventory control, invoicing, process automation).
- Technologies: React.js, Node.js, Express, REST APIs, SQL Server, MySQL, PHP, C#, AWS.
- Improved system performance and scalability.
- Implemented enhancements that reduced system load times by 40%.
- Provided technical advice to clients, post-implementation support, and documentation.
- Implemented MVC architecture, version control with Git, and cloud deployment.
- Participated in the full development cycle: requirements gathering, analysis, coding, testing, and maintenance.

EDUCATION

Colegio Universitario IES21

Completed (2022 - 2025)

Systems Analyst and Software Development

Universidad Siglo 21

In progress (2024–Present)

Software Engineering

TECHNICAL SKILLS
